

CHILD TRAFFICKING PREVENTION FOR FLORIDA SCHOOLS

Child Trafficking Prevention Video Series with Curricula

Human Trafficking is a over a 150 billion dollar economic giant. Child Trafficking is the fastest growing crime in the world according to the Justice Department, and America is the biggest buyer of sex globally. Interpol reports that large countries like India and the United states went up 98% for online child exploitation through child pornography during the Pandemic. This has created the demand and supply of the sale of children. Over 80% of all prosecutions now involve online recruitment. With AI on the scene, the daily online approaches to children are multiplying rapidly. Students, teachers and staff must be equipped to recognize the signs, and know what to do.

Martin County School District announced it's partnership with Visionary School of Arts (VSOA) and Florida Faith Alliance (FFA), for Child Trafficking Prevention on Feb 20, 2024. VSOA and FFA are collaborating on this project creating multiple videos to equip students, teachers, and staff to recognize the signs of Child Sex Trafficking, how to turn in tips to law enforcement, the tools and apps needed, informing students and staff to resist methods and approaches of traffickers and predators. There are 3 state-of-the art videos produced, age appropriate, one for elementary school, one for middle and high school, and one for teachers and staff with written downloadable curricula. The videos will be updated each year.

FFA provides content, research, local marketing with continued marketing throughout the state of Florida in every county. VSOA provides the artistic video production, online hosting platform and tech support.

We can work together with our schools and our communities to stop this horrific crime with over 10 years of experience in working with law enforcement, making appearances on South Florida News as recognized experts to equip people to recognize the methods of predators and traffickers, while working directly with trafficked children through Martin County Schools, and the Florida Department of Juvenile Justice with proven programs.

Thank you for considering bringing **"Don't Take the Bait!"** into your school district, or becoming a business / Individual sponsor!
